- **Socioeconomic Maps** – Joshua Farrow, as a requirement of our FY 14 contract with KYTC we were asked to update our socioeconomic and demographic maps with the newly updated US Census data. We received the data from the KY State Data Center, U of L, it was broken down by census block group. The following maps are used to demonstrate the region breakdown for Percent population over age 60, Percent disability status, Percent poverty status and Percent Hispanic and Latino population. Speak of the Standard deviation. This is also included in our Public Involvement Plan

Let them know that we do have these available by county as well. Thanks Again ☺

- **Recommended Highway Plan** – This is included in the meeting packets. Please note that this is the recommended plan and is often changed by lawmakers.
